

RESTORATION PROJECT MANAGEMENT

COMMAND THE CHAOS
April 24-29, 2023 in Canton, OH

Understand how proper planning is used to run restoration jobs proactively instead of reactively, limiting costly delays and errors.

Learn the science of project management along with proven systems and best practices specific to the restoration industry and utilized by recognized project management experts.

The BENCHMARK for professional PM training. We estimate that graduates will increase their capacity by 25% and margins by at least 5%, yielding \$50-75K in net profitability gain.

Graduates earn a Certificate in Restoration Project Management

Program attendees display higher standards of performance and sharper skills in these areas:

- Customer Service
- Time Management
- Negotiation
- Quality Control
- Project Administration
- Legal Issues and Solutions
